YES...Vegetarian Capsules, YES...All Vegan Source !

L-Tryptophan has helped millions of people find a deeper more relaxing sleep, and help to reduce stress and physical pain L-Tryptophan is the precursor to Serotonin, a neurotransmitter in the brain, which is deficient in depression and naturally enhances sleep. Each capsule of Pure L-Tryptophan has 500 mg. of the highest quality USP Pharmaceutical Pure Grade L-Tryptophan available for professional use.
Directions: As a sleep aid, Take 1-3 capsules 30 minute before bedtime, during the night if required, or as needed. If Serotonin deficiencies are noted in depression, and for anxiety and mood enhancement, Take 2 capsules 30 minutes before dinner and 2 capsules before bedtime.

RECOMMENDED TO ENHANCE STRUCTURE & FUNCTION RELATING TO NUTRITIONAL NEED AND DEFICIENCIES PERTAINING TO:

- Increasing Serotonin production - Low Serotonin levels and low Tryptophan levels have been associated with depression.
- Increases in Serotonin have also been helpful in those on weight reduction regimes.
- Serotonin deficiencies which have been noted in Chemical addictions.
- Sleep deprivation. Supplementation naturally enhances relaxation and sleep.
- Having an effect on pain tolerance.
